**Environmental Consulting RFP
The Poplar – 2615 Eagle Avenue
Addendum #2: Additional Guidance**

Please be advised that the submission deadline has been extended from May 20, 2024 to May 21, 2024 at 4:00 p.m. Pacific Time.

AHA received additional requests for guidance on what constitutes a responsive proposal. We acknowledge that the pilot testing and clean-up scope will depend on site testing data. We encourage proposers to provide their recommended approach to the project based on their understanding and experience with similar site conditions and local regulatory agency requirements. We will consider various options for solutions that meet our goal of fully remediating the site for residential redevelopment. If you choose to include multiple solutions, please include your ranking and justification for each option for our evaluation.
